The first day I met my mentor to begin my studies with her, she told me I had a great gift. Since that day I have come to understand that it is in the giving of that gift that I am true to myself. I wish to thank all of our friends, family and fans who have always been there to support our choices and our musical work. Special thanks goes to the parish of Christ Church in Aylmer for allowing us to record in their beautiful church.

Well deserved thanks also goes to John Dooher and Tracey Holmes for creating magic and preserving our art in the recording process; Kieron O'Gorman for sharing his artistic talents and designing the album sleeve; Pierre Laprand for always being able to capture us well in photo; Sylvain Aubé for teaching me that our minds and our hearts can conquer all adversity; David Irving and Charles Gay for being wonderful musicians and great friends; Tom McMahon for his constant support, love and artistic direction; Michelle Scott for being such a nourishing person and putting me on a stage before I knew I wanted to be there; and Janice Lee for being a truly inspiring woman, artist and mentor.

To my mother Lorraine who made us listen to all kinds of music growing up, who respected all of our crazy ideas, without exception and told me one day she had always had a secret wish that I would choose a career in music, June Cleaver has nothing on you!
